

## Editorial Policy

We in the Central Glass Group have published this report with the objective of engaging in a dialogue with all of our stakeholders by reporting on our social and environmental activities. In preparing this report, our goal was to make it easy to read and understand in order to thoroughly inform readers of our activities.

### Reference Guidelines

- Environmental Reporting Guidelines 2012 of the Ministry of the Environment
- Responsible Care (RC) Code of the Japan Responsible Care Council (JRCC)
- ISO 26000 (Guidance on social responsibility)

### Report period

April 2015 to March 2016  
(The period for overseas companies was from January to December 2015)

### Scope of the report

Central Glass Group  
(The scope of data was only gathered from the plants and research institutes of Central Glass Co., Ltd. along with some of its subsidiaries.)

#### What Is Responsible Care (RC)?

Most chemical companies voluntarily work to secure the environment, safety, and health throughout every process, from the development stage for chemical substances through to their manufacture, distribution, use, final consumption, and lastly their disposal. Those companies then publicize the results of these activities so as to engage themselves in dialogue and communication with society. These activities are referred to as responsible care.
